Lymphedema: The Chronic “Unknown” Disease

Course credit: 30 CEU's

Cost: \$60.00

The chronic disease known as LYMPHEDEMA can affect any man, woman, or child in any part of the body. When lymph nodes or lymph vessels are damaged, destroyed or missing resulting in an accumulation of wastes and fluids in an affected body part, swelling occurs. This is LYMPHEDEMA. Learn about the causes of lymphedema, signs and symptoms, stages of the condition, prevention and ways of guarding against getting lymphedema, self care, treatment, maintenance, compression garments, specific exercises, uses of gradient compression garments, directional flow garments, when and when not to use gradient sequential multi-chamber pumps in the treatment of lymphedema, new methods of enhancing treatment, complications and effects of untreated lymphedema.
